The Honorable Ted Stevens
United States Senate
522 Hart Senate Office Building
Washington, DC 20510

Dear Ted, "you mean, miserable, SOB"

Quit bragging! You remind me of my old friend Mel Laird, with whom I didn't agree on much of anything political but we did agree on what was politically decent and fair – and were good and compatible social friends – that's what politics was about when I got into that wonderful game some 55 years ago.

One thing still bothers me – how the press shamefully leans over backward to favor almost any Republican to almost any Democrat.

I enclose a news clip from The Green Bay Press – Gazette to demonstrate their bias in favor of the Republicans – any Republican! And that's what Thompson is! If the press had given me that kind of free publicity, I would still be in the Senate

Sincerely,

WISCONSIN
