April 22. Earth Day.

**A disease has infected our country.
It has brought smog to Yosemite,
dumped garbage in the Hudson,
sprayed DDT in our food,
and left our cities in decay.
Its carrier is man.**

The weak are already dying. Trees by the Pacific. Fish in our streams and lakes. Birds and crops and sheep. And people.

On April 22 we start to reclaim the environment we have wrecked.

April 22 is the Environmental Teach-In, a day of environmental action.

Hundreds of communities and campuses across the country are already committed.

It is a phenomenon that grows as you read this.

Earth Day is a commitment to make life better, not just bigger and faster; To provide real rather than rhetorical solutions.

It is a day to re-examine the ethic of individual progress at mankind's expense.

It is a day to challenge the corporate and governmental leaders who promise change, but who short change the necessary programs.

It is a day for looking beyond tomorrow. April 22 seeks a future worth living.

April 22 seeks a future.

We are working seven days a week to help communities plan for April 22. We have come from Stanford, Harvard, Bucknell, Iowa, Missouri, New Mexico, Michigan and other campuses.

We are a non-profit, tax exempt, educational organization. Our job is to help groups and individuals to organize environmental programs to educate their communities.

Earth Day is being planned and organized at the local level. In each community people are deciding for themselves the issues upon which to focus, and the activities which are most appropriate.

We can help, but the initiative must come from each community. We have heard from hundreds of campuses and local communities in all fifty states. Dozens of conservation groups have offered to help. So have the scores of new-breed environmental organizations that are springing up every day.

A national day of environmental education was first proposed by Senator Gaylord Nelson. Later he and Congressman Paul McCloskey suggested April 22. The coordination has been passed on to us, and the idea now has a momentum of its own.

All this takes money. Money to pay our rent, our phones, our mailings, brochures, staff, advertisements.

No list of famous names accompanies this ad to support our plea, though many offered without our asking.

Big names don't save the environment. People do.

Help make April 22 burgeon.
For you. For us. For our children.
